

My dad has a couple of classic old cars to sell.

I can email you more pictures and a short video of the cars being driven.

1941 Ford Super Deluxe Convertible

1941 Ford Super Deluxe Convertible. Partially restored, black primer. Runs good down the highway. Body, frame & interior are in good shape. Needs some of the new electrical wiring hooked back up and a speedometer cable. Manual transmission 3 speed on the column, 6 volt battery, V8 engine. Could use a new convertible top. No air bags but it has a big trunk. Asking \$16,000, prefer cash.

1954 Plymouth Savoy

This 1954 Plymouth Savoy runs good and has 30,000 miles. Tires are in excellent condition. Gets 12 MPG city and 19 MPG Highway. Has some stains on the original seats and some paint wear, surface rust on the original paint and missing floor board material on the driver's side.

Has a 6 cylinder engine, 3 speed manual transmission on the column, and I'm not a smoker but has an ash tray in the dash and one on the back of the front seat. Things have changed. Doesn't have air bags but it has a lot more steel, a metal dash and has a big trunk. Asking \$11,000, prefer cash.
