

What is Dowsing?

More than Logic

“If a person holds a pendulum from their fingertips the logical person may have to swing their hand to make the pendulum move, the spiritual person does not.” You can ask who you are speaking with, it may be a friend or relative who has left this world, another guide or angel. Those in a higher place can help you and help guide you to the answers for the questions you seek.

Some definitions:

Webster’s Dictionary ~ To search for water or minerals by means of a divining rod. * I believe that dowsing is a God-given ability that, when used only for the highest good for all concerned, can bring immeasurable help in many ways. I don’t need to know why it works, only that it does.

* Asking questions either verbally or mentally and using the body or a tool to seek and indicate an answer. * A spiritual science which prompts one to use their sixth sense. * To achieve better dowsing results it helps if one BELIEVES, in God, a higher presence, Great Spirit, universal life force... or as they say in the Star Wars movie “Use the force, Luke.”
